CAREER OBJECTIVE

Motivated Computer Science graduate seeking opportunities in software development, with skills in Java, Full Stack technologies, and modern web development. Driven to build scalable applications, solve real-world problems, and contribute to innovative solutions through continuous learning and professional growth.

EDUCATION

B.Tech in Computer Science and Engineering <i>Annamacharya Institute of Technology and Science — CGPA: 8.77</i>	Jul 2023 – Jul 2026 <i>Andhra Pradesh, India</i>
Diploma in Electronics and Communication Engineering <i>Vemu Institute of Technology — CGPA: 9.6</i>	Jul 2021 – Jun 2023 <i>Andhra Pradesh, India</i>

SKILLS

Programming: Java, JavaScript
Frontend: HTML5, CSS3, JavaScript (ES6), React
Backend: JDBC, Spring, Spring Boot
Database: MySQL
Core Concepts: OOPS, DBMS, Computer Networks

PROJECTS

MalleGit Hub – Freelance Finder <i>React, JavaScript, Node.js, Express.js, MongoDB, and REST APIs</i> – Designed and developed FreelanceFinder , a full-stack freelancing platform connecting clients and freelancers for project posting, bidding, and collaboration. – Developed secure Built responsive and user-friendly interfaces using React, JavaScript, and Bootstrap, enhancing user engagement and accessibility across devices. – Implemented secure backend services and REST APIs using Node.js, Express.js, and MongoDB for authentication, project management, and efficient data handling.	Jun 2025 – Present <i>Live: freelancing.git</i>
CampusServe – IntelliSQL <i>MySQL, Google Gemini Pro API, Generative AI, LLMs, Prompt Engineering</i> – Designed and developed IntelliSQL , an AI-powered text-to-SQL platform using Google Gemini Pro to transform natural language into optimized SQL queries. – Implemented seamless MySQL integration with real-time query execution, enhancing database accessibility and retrieval efficiency. – Leveraged Generative AI, LLMs, Streamlit, and Prompt Engineering to create an intuitive interface for intelligent database interactions.	Feb 2025 – Apr 2025 <i>Live: intellisql.git</i>

EXPERIENCE

TAP Academy <i>Full Stack Developer Intern</i> – Developed and deployed full-stack applications using Java, Spring Boot, Hibernate, MySQL, React , and REST APIs following scalable architecture principles. – Implemented backend services, database integrations, authentication modules, and responsive frontend interfaces. – Designed reusable React components, improved page load performance, and enhanced overall user experience across applications.	Feb 2026 – Jul 2026
---	---------------------

ACHIEVEMENTS

- Solved **300+ LeetCode problems**, strengthening data structures, algorithms, and problem-solving skills through consistent practice.
- Successfully completed GCCF Labs through GDG, gaining hands-on experience with cloud infrastructure, virtual machines, networking, storage, and cloud security concepts.
- Developed responsive React applications with optimized performance and improved user experience.
